## SHEA – EUCIC – ISC HEALTHCARE EPIDEMIOLOGY TRAINING Essentials in Healthcare-associated Infection Prevention and Management

17 – 20 October 2017  
Sheraton Mustika Hotel  
Jogjakarta – Indonesia

## PREFACE

On behalf of the international course faculty and the Aesculap Academy, we would like to invite you to Jogjakarta, Indonesia to participate in the SHEA-EUCIC-ISC Healthcare Epidemiology Training course.

This course has over a decade of history providing training in healthcare epidemiology and infection control with a particular focus on preventing the spread of emergent multidrug-resistant organisms. SHEA EUCIC, ISC, INASIC & HIPPI faculty have collaborated to develop this new iteration of the course with a particular focus on issues most relevant to South-East Asian participants. The 2017 course follows and expands on the successful 2016 course in Ho Chi Minh City.

If you are interested in healthcare epidemiology and infection control and would like to revisit (or get to know) the essentials, discuss them with the faculty, and compare your experience with those of other participants this course is where you want to be. In depth interaction between participants and faculty is built into the course agenda.

We look forward to seeing you in this exciting course in Jogjakarta, Indonesia!

Best regards and a warm welcome

Course Co-Directors:  
**Dr. Eli N. Perencevich MD, MS**  
**Dr. Joost Hopman, MD, DTMH**
